

CTec Extended Certificate in Health and Social Care

This course is **modular**; each unit is assessed separately. You will study **6 separate units**; **three** are **examined externally** and **three** are assessed through the completion of a **portfolio**.

This course provides a strong base for progression to University, apprenticeships or work. Students who take this course will develop **professional and personal skills**, as well as theoretical knowledge and understanding to underpin these skills.

The course is **vocational** and you will learn about **key legislation and guidance** supporting health and social care professionals. This knowledge will enable you to know how to **provide the care and support** for different service users as well as being able to **protect yourself and service users from harm and abuse** whilst at work.

Associated careers
